APPLICATION FOR POST OF SOFTWARE ENGINEER

Dear Sir/Madam,

I would like to submit my application for the Software Engineer position at your esteemed company. For your kind perusal and consideration, I attach herein particulars of my resume and look forward to receiving a favorable response.

I am a graduate of BSc (Hons) in Computing & Information Systems from Sabaragamuwa University of Sri Lanka. Throughout my academic and training period, I have gained extensive experience in software development, web design, and data analysis. As a Software Engineer my key responsibilities have included designing and implementing scalable systems, developing user-friendly web interfaces, and analyzing data to inform decision making processes.

Most of all, I have a way to offer here a unique value and potential and work with your brilliant staff. I believe that given my background, would be well suited for this position because of the technical skills that I Possess my passion for on the job learning and my desire to solve problems.

It will be great for me to work for Virtusa, the company is reputed for doing great work and I will easily be able to develop myself further while being productive in the betterment of my projects. I would like to locate my skills and passion in your company and looking forward to work on your team with full anticipation.

Thank you for considering my application. I look forward to the opportunity to discuss how my background, skills, and aspirations align with the goals of Virtusa. Please find my resume attached for your review.

Respectfully,

Withyen Wijayakumaran

BSc (Hons) in Computing & Information Systems

WITHYEN
WIJAYAKUMARAN

BSC(HOS) IN COMPUTING & INFORMATION SYSTEM

I am a qualified and IT professional with five years of experience in software development and website design. I aim to work in an environment that challenges me to expand my knowledge and refine my skills. My primary objective is career progression through engagement with innovative IT companies, where I can learn and absorb advanced tools and techniques from industry experts.
